Health Evaluation Packet 2021-2022

There are a number of steps involved in completing the health evaluation packet. This process may take several weeks to complete. The deadline to upload submissions is June 15th for Fall entrants, January 1st for Spring entrants, or June 1st for Summer students. Please take the time to carefully read the instructions on this page. This will give you an opportunity to plan the actions you must take to complete the packet, submit it by the deadline, and avoid penalties and registration delays.

Health Services requires all students to upload a copy of a fully completed and signed Health Evaluation Packet. The Health Evaluation Packet includes the following forms:

1. **Immunization Records**
2. **Tuberculosis Screening**
3. **Physical Examination**

Proof of COVID-19 vaccination can be submitted separately at: https://eforms.pratt.edu/lincdoc/doc/run/pratt/HealthUploads_COVIDVaccine

To upload your completed health evaluation:

1. Go to https://eforms.pratt.edu/lincdoc/doc/run/pratt/HEALTH_DOCS_UPLOADS (A link can also be found at www.pratt.edu/healthevaluation)
2. Upload each of the three forms of the health evaluation packet **individually**. You will have the opportunity to attach supporting documentation. (ex: vaccine records or testing reports) Make sure the form you are uploading matches the type of document selected. Mismatched or incomplete forms will be rejected and will result in a delay in the approval process.
3. For each successful upload, you will receive a confirmation email to your Pratt email account.
4. Once Health Services has fully reviewed and accepted your Health Evaluation Packet, an email will be sent to your Pratt email account notifying you that the process has been successfully completed.

Please keep in mind the following tips to ensure your forms are completed accurately:

- **Gather your immunization/vaccination records. All records must be written or translated into English.** These records may be located through your previous school/college, your doctor's office, or your parents. Be aware it may take some time to contact previous schools or complete request forms.
- **Schedule an appointment with your personal physician** for a full health evaluation and for your provider to complete the health evaluation packet. You may also schedule an appointment with an urgent care center or clinic if your medical provider is not available.
- **Make sure your physical exam is completed no more than 6 months prior to your entry at Pratt.** For example, if you are entering Pratt in September, the physical exam should be completed after March. Physical exams completed earlier will not be accepted.
- **Have your medical provider complete a tuberculosis screening.** All students are required to submit tuberculosis testing completed within the last 12 months. A BCG vaccination does not exempt students from this requirement.
- **Provide the name and phone number of an emergency contact.** For students entering Pratt under the age of 18, **please also ensure the Emergency Medical Authorization is completed by a parent or guardian.**
- **Check that each form has been completed in full and your medical provider has signed or stamped** every form in the designated box.
- **Proof of COVID-19 vaccination can be submitted separately at:** https://eforms.pratt.edu/lincdoc/doc/run/pratt/HealthUploads_COVIDVaccine

Students cannot register for classes until they have fulfilled all health evaluation requirements.
